

NEW VERSION

FEES

Education Course - \$450

Certification Course with Demonstration and Workshop - \$995

First Recertification - Written Exam - \$425

Second Recertification - Certification Course - \$675

Education Course

Wednesday, May 3, 2023: 8:00 AM – 12:00 PM – Education Session (8:00 AM – 8:30 AM Registration)

Wednesday, May 3, 2023: 12:00 PM – 2:00 PM – Study & Question Period

Wednesday, May 3, 2023: 2:00 PM – 3:00 PM – Written Exam

Description

Education Course participants are not seeking to become certified as a concrete slab moisture testing technician but have an active interest in learning more about the test methods, what information the tests provide, and how the tests are to be properly performed. Those that attend the 3-4 hour Education Session and successfully pass the Written Examination will receive a Certificate of Achievement from ICRI.

Certification Course with Demonstration and Workshop

Wednesday, May 3, 2023: 8:00 AM – 12:00 PM – Education Session (8:00 AM – 8:30 AM Registration)

Wednesday, May 3, 2023: 12:00 PM – 2:00 PM – Study & Question Period

Wednesday, May 3, 2023: 2:00 PM – 3:00 PM – Written Exam

Wednesday, May 3, 2023: 3:30 PM – 6:00 PM – Demonstration and Workshop

Thursday, May 4, 2023: 8:00 AM – 5:00 PM – Performance Exam (1 hour time slot per participant, assigned on Day 1)

Description

Participants registering for the Certification Course with Demonstration Workshop combination receive a discount on the Demonstration and Workshop. The full Certification Course is for those seeking to become an ICRI Concrete Slab Moisture Testing Technician – Grade 1. Participants attend the 3-4 hour Education Session, and take the written exam and a hands-on field testing performance exam. Completing the Demonstration and Workshop will waive the previous testing experience requirement necessary for taking the Certification Course. All five (5) ASTM tests included in the Certification Course will be demonstrated with opportunity for hands-on testing and training by our instructors/judges.

By passing both the written and performance exams, an ICRI Concrete Slab Moisture Testing Technician – Grade 1 certification will be issued by ICRI, and the individual will receive a certificate and a wallet

card. ICRI Concrete Slab Moisture Testing Technician Certification-Grade 1 certification is valid for a period of five (5) years from the date of completion and passing of all applicable certification requirements.

First Recertification – Written Exam

Wednesday, May 3, 2023: 8:00 AM – 12:00 PM - Education Session (optional)

Wednesday, May 3, 2023: 2:00 PM – 3:00 PM – Written Exam

Description

To restore and maintain active certification status, recertification is required on a 5-year basis. First recertification (5 years after original certification) requires passing a Written Examination that covers the five (5) applicable ASTM Standards. If desired, first recertification participants can sit in on the 3-4 hour Education Session at no additional fee. Successful recertification will provide certification for a period of five (5) years from the date of completion and passing of all applicable recertification requirements and a new certificate and wallet card will be issued by ICRI.

Second Recertification – Certification Course

Wednesday, May 3, 2023: 8:00 AM – 12:00 PM – Education Session (8:00 AM – 8:30 AM Registration)

Wednesday, May 3, 2023: 12:00 PM – 2:00 PM – Study & Question Period

Wednesday, May 3, 2023: 2:00 PM – 3:00 PM – Written Exam

Thursday, May 4, 2023: 8:00 AM – 5:00 PM – Performance Exam (1 hour time slot per participant, assigned on Day 1)

Description

Second recertification (5+ years after first recertification) requires again completing and passing the Certification Course in its entirety (the Education Session, and both the written and performance exams). Successful recertification will provide certification for a period of five (5) years from the date of completion and passing of all applicable recertification requirements and a new certificate and wallet card will be issued by ICRI.

ICRI Concrete Slab Moisture Testing (CSMT) Program

Stand out from the crowd and gain fundamental education or full certification as a concrete slab moisture testing technician through ICRI's Concrete Slab Moisture Testing (CSMT) Program. In addition to improving your understanding of what slab moisture tests actually measure and what the test results mean, certified individuals provide a higher level of confidence in the test results that are critical in the flooring pre-installation decision-making process or post-failure forensic investigation.

The CSMT program consists of two (2) course options:
Education Course, offering you fundamental education in concrete slab moisture testing; and
Certification Course, offering you full certification as a concrete slab moisture testing technician
